

Fashion Design

About fashion..

Fashion Designing is a specialization of humanities that covers the wide spectrum of fabrics ,styles, pattern, colors and trends that defines the fashion of a particular era. It is not just limited to clothes and trends but also includes the area of accessories ,handbags and footwears.

Why Fashion...

- Fashion is a very dynamic field. Trends keep changing every day and fashion designers are expected to be up-to-date with the changing trends. It is the right career choice for people, who love challenges. The joy of seeing your creations worn by famous celebrities and well-known people is incomparable. Moreover, you also get the opportunity to travel and attend the happening fashion events across the globe and work with clients with varied tastes and preferences.
- Studying fashion design helps you to create your own identity and stand out from the crowd. If you are the one, who dislikes routine 9 to 5 jobs, and love to experiment with your looks, clothes and accessories, then fashion design is the career for you.
- Fashion design is a highly fulfilling career for people with a creative mind and an adventurous spirit. Pursuing professional courses in fashion design equips you with the required understanding of design creation. It also helps you to choose a specific area of interest and develop your skill

Courses

➤ Bachelor of Fashion Design:

It is a three-year undergraduate course dealing with clothing and accessory design. This course offers a holistic learning experience for students by providing both classroom and training sessions. In this course, students learn about design patterns, fabrics, trends in fashion, marketing, etc.

➤ Diploma In Fashion Design:

Master of Fashion Design is a two-year postgraduate program focusing on research practice and specializing in design thinking. This program helps students' aptitude and skills and prepares them for the real world as fashion design professionals.

➤ Fast Track Diploma in Fashion Designing:

A diploma in fashion designing is a skill-oriented course of 12-18 months' duration. With a wide variety of subjects covered, students learn everything from the specifics of design to starting and sustaining a brand.

➤ Specialization

Many students are enrolling in online fashion designing courses after the 12th. These courses are very short-term, from weeks to a few months, and accredit students with a valuable certificate that is widely accepted.
